Dear Friends and Fellow Republicans

On Friday, in maybe one of the most dramatic moments of my adult life, the Supreme Court finally undid a wrong committed 49 years ago, and overturned Roe vs. Wade. The vote was 6-3 to overturn. Since Roe passed in 1973, approximately 63,459,781 innocent souls were never allowed to be born because of this monstrous decision by the Burger Court. <https://nrlc.org/uploads/factsheets/FS01AbortionintheUS.pdf>

The fact is that Roe was one of the worst Supreme Court decisions in our history - ranking right up there with Dred Scott (which helped to cause the Civil War), and even liberal Justices like Ruth Bader Ginsburg believed that Roe was a horrible decision from a legal sense.

I keep thinking about those 63 million unborn children, and what they would have or could have become. We do know they are in Heaven, and that they know no pain or suffering. How many would have become doctors, or sports figures? Would one of them have found a cure for cancer or illnesses such as Alzheimer's? Most would have become just average every day ordinary American citizens, going about their lives as most of us do. Sadly we will never know.

But we can take great solace in the fact that Friday, June 24 2022, marked the beginning of the end of the slaughter line that is Planned Parenthood. It is now time for the state legislatures around the nation to do the right thing, and to ban abortions in each state in the Union.

As most of you are now aware, I have already announced my race for the Virginia Senate. And if elected by the good people of Virginia SD1, I will introduce legislation which would make abortion illegal in Virginia.

2A SCOTUS Ruling

Also the Supreme Court ruled that New York State's laws regarding concealed weapons permits were unconstitutional. This was also a very monumental ruling, and this applies to Virginia gun owners as well. Example - Maryland has similar gun laws as does NY. Let's say that you live in Winchester, and you want to travel to Pennsylvania. You have a Concealed Weapons Permit. However your permit is not recognized by Maryland. Thus the moment you

according to the laws of Maryland.

And while some may not want to hear this, these 2 rulings were made possible by President Donald J Trump, who made good on his promise to nominate originalist jurors to the federal court system. During Trump's 4 years in office we took back the 9th Circuit Court of Appeals, and we now have a real conservative majority on the Court. Remember it was Donald Trump who nominated Gorsuch, Kavanaugh, and Amy Coney-Barrett to the Supreme Court.

Thank you President Trump!

Now, last week wasn't all good news - over a dozen RINO's in both the US House and Senate went along with Senate Democrats and handed to the radical leftists a victory on gun control. This bill will help fund red flag laws, which are a clear violation of the concept of due process as red flag laws allow for the government to take your firearms if someone deems a person dangerous without any due process.

This is dangerous territory. And we Republicans keep snatching defeat from the jaws of victory. Something that we need to quit doing.

However we must remain optimistic about our future. All in all, last week was monumental in our history. The Roberts Court undid bad acts by their predecessors, and we are a few steps closer to being a constitutional republic once again.

Thank you for allowing me to serve you as your Chair. Together we are taking back Virginia
