Dear Friends and Fellow Republicans

## **From the American Spectator**

Jeffrey Lord of the Spectator has a brilliant article - talking about how anti-Trump Republicans keep talking about how they support conservative causes, but in actuality they keep voting against them. Or supporting candidates who oppose conservative family friendly policies.

These people are basically charlatans who are living off the trough in the swamp. They claim to support We the People, but in actuality want what is

## **World Economic Forum Supports Higher Gas Prices to "Save Democracy"?**

The WEF, in one of the most intellectually dishonest policy papers ever known to Mankind, issued earlier this week a statement saying that there is a "decline in democracy around the world and this is because of "climate change", and that the only way we can preserve our freedoms is for gas prices to go higher so that we can use more environmentally friendly fuel sources (aka wind/solar etc).

This is truly one of the most bizarre things ever written - and the WEF goes onto say that we need to price oil and natural gas out of the market so that democracy can be saved.

Have they not seen what is happening in Sri Lanka? Where surreal environmental regulations have put that country into starvation mode? Dutch farmers have been protesting extreme environmental regulations, and that protest is slowly making its way across Europe.

Environmental extremism only benefits a few wealthy self appointed elitists, and literally destroys the rest of humanity.

I believe in competition, and I believe in using what works. And what works is natural gas, and fossil fuels. What does not work is shutting off the use of fossil fuels so that we can make a few power mad elitists happy and wealthy.

## **Around the District**

During my 2nd term as District GOP Chair, I've been to almost every locale/Unit inside the District (and those I have not been to yet, will see me soon enough). And I see hundreds if not thousands of pissed off Americans who want to take their country and their Commonwealth back. It was great to be in Roanoke County last night. And you could see it in everyone's face - that they want to

Unit Chair Ashley Sutterlein is an outstanding Chair. Her leadership skills are beyond impressive.

Maybe more importantly, Michael Walsh (legislative aide to Senator David Sutterlein) was in attendance. For those of you who may not remember, Michael was nearly killed after being struck by an oncoming car in a snowstorm earlier this year. Michael has almost made a full recovery. God be praised.

Earlier this week I was in Botetourt County at their GOP Meeting - Botetourt is ready to elect a new County Treasurer - more to follow on this topic.

I'd like to mention that Rick Nagel is also running for Harrisonburg City Council. You can learn more about Rick at [www.ricknagelforcitycouncil.com](http://www.ricknagelforcitycouncil.com).

Each of you is an inspiration to me personally. People often marvel at how hard I work and ask how I can do all that I do. My answer is always the same - Each person who works hard inspires me to work even harder, and together that is how we take back Commonwealth and Country.

Please get involved and stay involved.

I remain

your servant

JM

S John Massoud  
6th District Republican Party Chairman
