## Making the 6th District Great Again!

Dear Friends and Fellow Republicans

As most of you are aware by now, Mr. Anthony Fauci, the man who - more than anyone else, was responsible for the COVID catastrophe which destroyed the US economy, has announced he will retire once Joe Biden's 1st term in office ends.

Quite frankly, I don't expect him to last that long, as Congressional Hearings will hound him for the next 2 years. We can expect his sycophants in the corporate media to talk about all the great things that Fauci did, and how everything was Donald Trump's fault.

So if it's ok with each of you, I'd like to take this time to remind each of you of a few (not everything as we'd be here forever) things that Mr. Fauci did to wreck this nation.

1) Implement "contact tracing". Contact tracing is the concept of tracking everyone who an infected person has come into contact with. While this can work when it comes to sexually transmitted diseases, it is all but impossible to do this with airborne viruses. Fauci's trying to do contact tracing wasted a lot of time and resources which would have been better used on other things. Quite frankly, Fauci should have been fired the moment he implemented contact tracing into the equation. All it did was sent government and private sector workers on wild goose chases.

2) Failure to protect the elderly. Very early on, it was clear that COVID was dangerous only to a select group of people. Elderly, those with respiratory issues, etc. For Fauci to use the full weight of the bureaucracy to treat all Americans the same when it came to COVID exposure - was criminal. It was this type of thinking that gave NY Governor Cuomo the brilliant idea of putting COVID patients in nursing homes.

3) Mandating school closures. Again it was evident early on that children would not be very susceptible to COVID, so for Fauci to order school closings on March 12 2020 and subject our children to isolation was another criminal act. The Swedes understood this early on, and kept their schools open.

4) Funding Chinese labs in Wuhan. Need any more be said?

## **Female U Penn Swimmers Were Uncomfortable Changing with Lea Thomas - Blast NCAA**

Riley Gaines, former college competitive swimmer from Kentucky, blasted the NCAA for allowing U Penn's Lea Thomas to not only compete against women athletes, but forcing them to change together. Ms. Gaines is one of an increasing number of young ladies who are being affected by the woke culture, and is speaking out against it.

## **Interesting Video from Prager University**

More and more of our college students are being affected by crazy thinking taught to them by their leftist professors. And none of it is crazier than the idea of "cultural appropriation" - aka wearing an outfit from another culture is now racist. A couple years back, Prager University did a video on this - it shows a white man dressed in a sombrero, pancho, and an obviously fake mustache. And how the college kids think it's racist, yet the Latino's who saw this man's costume love it.

With this brilliant type of thinking, no one outside the USA would ever be allowed to wear Levi's jeans, or Nike shoes. These woke leftists, in their attempt to not be seen as racist, are denying anyone the best of the USA and all that we have to offer.

I try to respond to each and every email sent that asks for a response. I do read every email sent to me and enjoy your thoughts on issues. Whether we agree or disagree, an open exchange of ideas is what makes our Republic great.

Thank you for allowing me to serve you as your Chair. Together we will take back Virginia

your servant
