Dear Friends and Fellow Republicans

Ben Cline Takes On Big Tech!

As most of you now are aware, Big Tech has been doing the bidding of the Biden regime by silencing the voices of conservatives, not to mention, our President Donald J Trump. Twitter being one of the worst offenders. Remember that Twitter has silenced Donald Trump but is seemingly ok with the Mullahs in Iran.

Last week, various Members of the GOP Caucus, with Ben Cline as one of their leaders, wrote a letter to the new CEO of Twitter requesting that Twitter ceases silencing movement conservatives and shows that they're truly open to diversity of ideas and thoughts, not just what the Twitter mob insists on.

Elsewhere Inside CD 6

I've been up and down the District alot lately, and the passion which carried us to victory in November still burns. I was afraid once we elected Governor Youngkin, that many people would think that once we won, they could take off and let things happen. Thanks be to God that at every Christmas party I've attended, every local Unit meeting, or event, that pretty much everyone of you understands that this is only the beginning - more work must be done to take back Virginia.

Onto 2022 and a Republican Majority in Congress!

Build Back Better is Dead!

Thanks to some sanity left in the Democratic Party from Senators Krysten Sinema and Joe Manchin, Joe Biden's Build Back Better (aka Build Back Broke) porkulus package has been killed. Manchin came out over the weekend and said that there was no way he was going to vote for this God Awful spending package, and that it was dead. Leftists have been railing up and down the talk show circuit, with avowed communists like Kirsten Powers saying that Mr. Manchin needs to be tossed from the Democrat Party.

Like it or not, Manchin and Synema saved the Democrat party from an even bigger debacle come this November.
