Dear Friends and Fellow Republicans

The Establishment Strikes Back?

Did anyone watch the 1st round of the "hearings" on the January 6 Commission? No. Very few did. The powers that be inside Washington DC are doing anything they can do to try and take our minds off of the pain we are going through because of inflation and their own incompetence. So they're trying to come up with the same old story about how January 6 2021 was one of the worst days in our history and that Trump led an insurrection against the USA.

1st off, no one is buying their story. We the People are suffering because of the Democrats stance on energy independence and the J6 hearings did nothing more than give the Inside the Beltway crowd a couple of hours of talking points. Most everyone has made up their minds on this subject. Yet the Biden

rabblers are incompetent to handle democracy and thus must be led by them.

2nd, Tucker Carlson said something on Election Night 2016 - talking about how everyone living inside the Beltway basically existed to live off the government trough, and how these same people look down on everyone else outside of the Beltway. This self appointed establishment believes that we live to serve them, and that we should thank them for all of their hard work.

There have been many unsung heroes of the Pandemic. The obvious ones are medical workers - doctors and nurses who put themselves at risk each time they went to work. I am reminded of great Americans like Eugene Conti of Botetourt, who died from COVID he contracted while helping treat patients.

One group of unsung heroes has been truckers, who - in spite of all the things that government has been doing to stop them, have been keeping grocery stores and retail outlets in business so that we can buy food and other necessary items. We can't say enough things about how the trucking industry and truck drivers in particular have kept us functioning as a society. Yet the people in DC are doing everything they can in keeping gas prices artificially high so that our grocery stores and other outlets can't be supplied with goods.

Homeschool Moms have been instrumental in making sure that our kids have gotten a 1st class education. There are not enough words that can be said about these heroines. If there's some group of people you want mentioned here, email it to me please.

The Democrats and RINO's in Congress can try and obfuscate all they want, but there will be a reckoning with the American people come this November. We the People will exercise our immense power and send these people to their political graveyard. There was no insurrection, there never was any insurrection. And to say differently is just plain wrong.

It should also be mentioned that while Liz Cheney is here in Washington campaigning by sitting on the J6 "Committee", there have been massive floods inside her native Wyoming, and she's oblivious to this fact. Her people are in grave peril, and she's concerned about looking good on TV.

Virginia Is Back In Business!

Thanks to hard work from our Governor Glenn Youngkin, the LEGO corporation has announced they will be moving some of their headquarters into the Commonwealth, bringing an additional 2,000 or so jobs to Virginia. This on the heels of Boeing moving more of their operations into Virginia, and other corporations doing so also. Thanks to Team GOP and Team Youngkin, we're back in business after 8 years of Terry McAwful and Governor Blackface.
