Dear Friends and Fellow Republicans

Donald Trump is the Worst Fascist Ever!

For all this talk about Trump and being a Fascist, let's be honest, he's the worst fascist in history. Trump was the most accessible president in modern history, he did more to open up the White House to the average American and to reach out to Americans in all ways possible. Yet the DC Establishment called Trump an existential threat to democracy.

Victor Davis Hanson has a great article in American Greatness, which really is a must read. Talks about how it's the DC establishment who are the real Nazi's

The 20th Century gave rise to socialist command economies. North Korea, Cuba, and Venezuela are the last remnants of that dying political system. Yet somehow there is a large segment of the American population which believes that communism as practiced in North Korea will work here.

AR-15's – Bad for Us, but OK for Antifa

Letter Writer's Needed!

Radical ;leftists are out there in force writing to each newspaper about what an extremist Ben Cline is. Where we all know that Ben shares our Valley Values, the fact is that the Democrat party now controls the Op-Ed pages in many local publications. Please take a few minutes and write a Letter to the Editor or a Reader Commentary in your local paper. Earlier this week, the Daily News Register Online published something I wrote in response to an Op-Ed by his radical opponent. Writing one of these doesn't take too much of your time. Here is a link to what I wrote. Please feel free to use this as a starting point to anything you wish to write:

How Close Are We To Becoming A Socialist State

Was watching a video yesterday, about how North Korea, which was once a rather forward thinking country and much more prosperous than South Korea, became so poor so quickly. And what happened to North Korea, and what happened to Venezuela, is a stark reminder of how fragile living in a free society can be. Cuba could also be added to this list as well.

The North Korean land had all the raw minerals, but because they were a government run economy, the Kim Jong Il regime didn't put experts in charge of mining and manufacturing (which is what a business would do) but instead put bureaucrats in charge, who have 0 understanding of what it is like to run a mining operation. The North Korean bureaucrats had no idea how to do anything, and because of inertia, we end up with the disaster we now have in North Korea. Similar events occurred in Cuba and Venezuela. Each had natural resources, but the government run economy got in the way and doomed millions to poverty.

North Korea stands as a reminder that nations governed by a small elite fixated on retaining power and gate keeping the keys to truth are where true human suffering lies. Does this remind you of anyone inside the DC Metropolitan area?

Thank you for allowing me to serve you as your Chair.

I remain

your servant
