## **Electric Vehicles Won't Help the Environment**

The Biden regime, and the Democrats in both California and Virginia, are dead set on getting rid of fossil fuels sooner rather than later. So much so that Virginia, when it was under full Democrat control, passed a bill saying that whatever carbon emission standards set by California, were to be followed in Virginia. This crazy law would have effectively banned the sale of gas powered vehicles in Virginia by the year 2035. This extremism was one of the main reasons that Virginia went back to basics in 2021.

Many of us have said for years that banning all gas powered vehicles won't

And as a wise man recently said, the only sure fire way to rid the world of carbon emissions is for each of us to stop inhaling.

### **More on Riley Gaines Barker**

The young heroine known as Riley Gaines, is making a major dent in the arguments of the LGBT lobby. Ms. Gaines, a former college world class swimmer, was winning all of her meets until a biological male posing as a female decided to start competitively swimming. This biological male, better known as Lia Thomas (born William Thomas) was a poor swimmer in the male division, and then decided that he was a she, and then broke all sorts of women's sports records for swimming. Making it all but impossible for biological females to compete.

Young Ms. Gaines-Barker took to the conservative media, who were the only ones defending her and women's sports - and was recently assaulted by a male wearing a dress at a San Francisco State University campus after giving a speech talking about the need to keep women's sports limited to women. Seems that what we would call beating up a young women is now protected as "pro trans speech". Sorry but I still call it assaulting a woman.

People often like to say the youth will destroy this country. Sorry but I see young women like Riley Gaines Barker and am optimistic for our future. But those of us need to be in the fight and need to teach our kids how to fight!

### **Shining a Spotlight On Our Local Elected Servants - Rebecca Smith of Page County**

Today, I want to take a few minutes to introduce many of you to a dear friend of mine, who is also doing an amazing job as the Commissioner of the Revenue

of Revenue. Becky is a veteran of the Commissioner's Office having left a prominent local law firm to help out in Page County government. Becky is a long time conservative and Republican activist and is well known in her community.

Remember that your local elected officials are just as important as your state and federal elected representatives are. We need them to do their job and not allow Soros funded local elected to use government as a battering ram against our constitutional rights. Becky's office is known for good customer service, and Becky is fully deserving of another 4 years in office. Becky's office recently received an accreditation certificate from the Commissioner of Revenue Association of Virginia. This was done on January 9 of 2023. The letter from the Association reads in part:

“Accreditation is awarded only to those offices that have met the rigorous standards set forth by the [Association], The twelve standards set forth by the Association include education requirements for the Commissioner and staff, customer service, personnel, and ethics policies as well as assessment methodology.”

Thank you for allowing me to serve you as your Chair. Together we will take back Virginia

I remain

your servant
