## **Globalists - Starting Wars Since 1914**

We've all heard of World War I – and but what do you really know about how and why WW I started? Schools never really taught us why WW I started and the politics of the world leading up to 1914. I've been studying for the past several years the reasons that WW I started, and the reasons for WW I and the carnage – are eerily similar to what our world is right now.

This will be a bit complicated, but work with me here – it will make sense after a couple of paragraphs.

the German Empire, the French Empire, and the Austrian Hungarian Empire. Each of these groups had set up their own bizarre network of alliances to ensure that there could be no war in Europe.

The Germans reached an agreement with the Austrian Hungarians as they spoke the same language (officially – in reality this was not the case), the Russians had the backing of France (French globalist bankers would lose greatly if Russia defaulted on her loans), the British wanted to make sure that the Germans didn't build too large a navy. (This is a very simplistic analysis, for a better albeit very hard to read analysis, read *The Sleepwalkers* by Christopher Clark) The Austrians wanted war with Serbia to prove the greatness of Austria. Russia was darned determined to prove that they were the dominant Slavic people in the world. The Ottoman's wanted to be relevant.

So they had a very sophisticated network of treaties to ensure that no war could take place. And this network of treaties lasted until it didn't. And it was the globalists in each country listed above which started WW I. After the assassination of Austrian Arch Duke Franz Ferdinand, the Austrians wanted to show how great they were on the world stage, and their Military Chief of Staff got the war he wanted to show how great the Austria Hungarian empire was. The Russians needed to prove they were the head of the Slavic people, and thus declared war on Austria Hungary. The French bankers manipulated the French people to get a war to protect their investments in Russia. The Germans wanted to show they were the strongest power in Europe. The Brits felt that if the Germans got powerful, they would no longer be able to siphon off resources from the rest of their empire. Each nation/empire listed above praised themselves for their greatness.

The end result 41 million dead and wounded. And the mistakes made by these foreign policy globalist geniuses both going into war and then the haphazard way they ended WW I gave us WW II. And Adolf Hitler. And the Holocaust. And no one understood how the globalists manipulated everyone into WW I until decades later.

Let's fast forward to 2021. What do we have now? We have a Chinese menace which is fast rising and is taking money from us to fund their military expansion. Bill Clinton, the ultimate globalist, started investing US dollars into the Chinese economy, and now the Chinese has the capability to become a

power. And there is still the 800 pound gorilla, the USA. You want to tell me that a weak feckless leader like Joe Biden can't get us in trouble just to show how weak he isn't? The Chinese want a war with our money to show how strong they are. The Russians want to remain relevant, and the USA globalists are dumb enough to start a war with the Chinese to protect their financial interests.

Sorry if this comes across as a bit egg headed, but we need to understand how these globalists can manipulate a situation for their own benefit, and how they never receive any blame until it's too late.

### **Each of you is an Inspiration**

I attend meetings up and down the District, have been to meetings in all 17 locales this year. And I want to thank each of you for the hard work you are doing to ensure that we take back Virginia come November. I was in Waynesboro last night, and the work that Herman Wells and Jerry Wilson are doing is masterful to watch. Jerry has that HQ running like a well oiled machine, and Herman's work with the Election Integrity Committee is going to ensure that the cheaters will have a hard time trying to pad the ballot boxes.

And we're seeing this up and down the District. All over CD 6, people who have never been involved before are becoming poll watchers and elections officials. More is still needed, but in some locales we've got more poll watchers and elections officials than do the Democrats.

Well done Team GOP!

### **College Republicans Strike Again!**

Welcome to the Sweet Briar College Republicans - the newest CR chapter in Virginia. A special thanks to Trevor Webb for all his hard work in launching another College Republican group. I just hope they work as hard as Meredith Minto and her Liberty CR's and Juliana McGrath and her JMU CR's.

Thank you for allowing me to serve you as your Chair. Together we will take back Virginia
