Dear Friends and Fellow Republicans

How Did Sweden Become the New Gangland

Sweden, which we all know is a liberal paradise where guns are mostly banned, has become in recent years a gangland where the average person is no longer safe when they go outside. Sweden has a more serious gun violence issue than does the USA. Of course, leftists don't want you to know this is happening, as they continue to hold up Sweden as a paradise where everything is paid for you, and there is no crime.

We all know it is because Sweden, as has most of Europe, has allowed unrestricted migration from Muslim countries into their supposed utopia, and the fact that they don't really punish criminals has nothing to do with it. If a 16 year old commits a crime in the USA, they will most likely be eligible for a life sentence. But not in Sweden – where most teenagers who commit a violent crime can only be punished by 4 years inside a youth facility.

It is not the gun that kills, it is a hard heart that commits the crime. Remind that the next time leftists or their enablers tell you that we need to be more like the Scandinavian countries. Actually we don't. They need to be more like us. Or like we were before the Progressives tried taking over.

Rudy Guiliani cleaned up NYC. How? He went after criminals. Why is San Francisco such a mess? Leftists have taken over the City and decriminalized everything.

share Western values will destroy a nation.

African American Women More Likely To Have Contracted the Black Death?

Can't make this stuff up. From RedState.com – it seems that a group of researchers studied the remains of many who died during the Bubonic Plague, and have determined that the Black Death was racist, going after African American women at a higher rate. According to the BBC, this is because of “premodern structural racism” – guess that means that plagues were racist before White Americans were?

These lunatics really can't help themselves.
