Dear Friends and Fellow Republicans

On March 20 1854

Yesterday March 20, in a small church in Wisconsin, the modern Republican Party was formed. In a small town called Ripon - in the schoolhouse above, the Republican Party as we know it was founded by a group of abolitionists. Many of them were former Whigs (the party formed to be the Anti-Jackson political faction) and former "Free Soilers" (an anti slavery party which existed from 1848 to 1853).

The Republican Party ran it's 1st candidate for President in 1856 (John Fremont) and then won in 1860.

Our party has changed somewhat over the past 167-168 years, but we've always been about freedom. At first it was freedom for the slaves. Now it is about freedom to live for the unborn, and freedom from government tyranny

We have elected such great men as Abraham Lincoln, Calvin Coolidge, Ronald Reagan, and Donald Trump. We've also elected some men who weren't as great.

Now we are at a crossroads in American history. We are up against a group of people who are determined to turn us into a 3rd world nation. The modern day Democratic Party is a hodgepodge of special interests, some of whom really hate each other. They have abortionists who think that it is hip to slaughter a baby in the mother's womb. The Democrats have another group of people who believe that a male can call themselves a female, and then have that "female" compete against women in women's sports. Not to mention a group of woke capitalists who - because they want to be hip, are turning corporate America into a shell of itself. Not to forget also have a group of environmental nuts who think that \$4.00 gas is a good thing, and that the more the average person suffers, the better it is for the environment. Forgetting that their electric vehicles need minerals from Mother Earth for the electric batteries. And let's not forget the sick people who want to teach sex to our 5 year old pre school kids. The list goes on and on.

Against all that, all that money, all that brainwashing - we do have some powerful weapons. We have the truth. We have - as long as we are on God's side, we have a pretty big God who has our backs. And we have numbers. The average American does not subscribe to woke politics. The average parents do not want their 5 year olds to learn about sex inside classrooms. The average Virginian doesn't want \$4.00 gas. The list goes on and on.

Eternal vigilance is the price of a free society. We must remember that for our children to have a free country, that we need to fight now on their behalf. And then show them how to carry on the fight so they will give to their children an America that is free.

Having met most of you in person, having looked into your eyes - I know we can win and we will win. Abraham Lincoln, Calvin Coolidge, Dwight Eisenhower, and Ronald Reagan are looking down at us now and rooting for us from Heaven. And for the sake of our future and our children's future, we must not let them down.

Thank you for allowing me to serve you as your Chair. Together we will take

I remain

your servant
