Dear Friends and Fellow Republicans

Project Veritas Nails Pfizer

Project Veritas, an organization dedicated to doing the work which the legacy media used to do, flexed their muscles a few days ago by getting a Pfizer senior manager to admit that they have been manipulating the virus to profit off the pandemic.

The Pfizer Manager, named Jordan Walker, is/was the Director of Research and Development for Pfizer. He bragged about COVID being a cash cow for Pfizer, and talked openly about how the FDA does not do its job when it comes to regulating Big Pharma.

From Walker's own big mouth:

“So in the pharmaceutical industry, all the people who review our drugs – eventually, most of them will work for pharmaceutical companies. And in the military, the defense government employees eventually work for defense companies afterward.”

“Because when the regulators who review our drugs know that once they stop regulating, they’re going to work for the company, they won’t be so hard on the company that will give them a job,” he said.

If this isn't government and the Deep State manipulating things to have an outcome which best serves them, I don't know what is. Please watch Tucker Carlson at the very end of this video, his analysis is amazing (per usual)
