Dear Friends and Fellow Republicans

Terry McAwful Shows His Disdain for Parental Rights Inside Schools

Last night was the best reason I can come up as to why we need to ensure that Terry McAwful does not take back the reins of power in Virginia. In his debate with Glenn Youngkin last night, Scary Terry said and I quote: [I don't think parents should be telling schools what they should teach](#)".

For all the liberals talk about how there is no CRT and there is no child porn going on in Virginia schools, they sure get upset each time that We the People complain. This is further proof that both CRT and other counter culture things are being taught in our schools.

For those of you on Facebook, this is a must view video. For those of you not on Facebook, Kerrs Creek District School Board Candidate Morgan McCown proves that subversive books are being shown to your school kids inside Rockbridge public schools. This video is a must see.

Ben Cline Takes a Strong Stand on the Porkulus Bill

In a speech on the House Floor earlier this week, Ben Cline goes into great detail as to why this so called infrastructure bill (actually a tax increase on the middle class to pay for the lifestyles of the rich) must not pass. Ben talks about how less than 15% of the \$3.5 trillion will go to road improvements - the main thing we should be talking about - and how most of this money will be a giveaway to the environmental extremists and the donor class.

How to Vaccinate Minorities? Simple! Let's Shoot Them With Blow Darts

Guys we can't make this stuff up. Taylor Lee, an employee of the FDA was caught on camera this past week saying - in response to a question about how to get more minorities to get the vaccine - that we need to shoot them with blow darts to get the vaccine into them. And in case of boosters, let's just lie and say it's Vitamin C. This set of undercover videos, shot by Project Veritas, shows that the bureaucrats believe they are our overlords and that us common folk are their peons.
