Dear Friends and Fellow Republicans

What Wrought Hath Democrats Brought Upon Us

A lot of news coming out of official Washington DC, and most of it is bad. 1st off, inflation was higher than expected, hitting 8.5% for the month of March 2022. This is the highest rate of inflation since December 1981, and this is making paupers out of us all. What is even more despicable is the fact that this wave of inflation could easily be fixed by doing 2 things.

- 1) Stop waging war on our own energy sources. We were a net supplier of energy around the world, until Joe Biden came into office. Now we are once again a net importer of energy, and with the war in Ukraine having disrupted world commerce, energy prices are soaring.
- 2) Stop spending our children's money. We are spending money that we no longer have, and will never have. We have been doing this since fiscal 2009 (GW Bush's last budget) and nothing has changed since then. Obama ran up trillion dollar deficits. We had trillion dollar deficits from 2017 through 2021, and now Mr. Biden is trying to double down on trillion dollar deficits - saying they're not enough. He has plenty of help in this from the Bernie AOC wing, and sadly

We cut back on spending a bit - and grow our own economy, and we will cut that deficit in just a year or 2.

Inflation is a tax on working families, and a tax on savings. And the elites which run the Democrat party are laughing at our suffering. Joe Biden, Nancy Pelosi, Chuck Schumer, AOC, and each person who has supported their elitist policies need to be removed from office and sent to the dungheap of history where they belong.

Al Sharpton is Right For Once?

Never thought I would ever be doing this, but we're going to be agreeing with Al Sharpton for once. This won't be an everyday occurrence - but in an interview yesterday on MSNBC, Sharpton had some fascinating thoughts on why African American voters are starting to become sick and tired of Democrats.

The Democrat Party is now a group of white elitist racists who want to hide their racism by tagging everyone else as being racist. Sharpton said as much in the interview.

Now, I really don't think that African American voters are ready to dump the Democrats just yet. We have alot of outreach to do, and we've allowed ourselves to be painted as racist extremists by a group of racist extremists (white woke leftists). But black voters are sick and tired of being used by Democrats. Now we the conservative movement needs to do better outreach and welcome them into the fold. And make sure they understand that white woke elitists are their enemy, not us.

It's Bad When Democrats Have Lost CNN

Democrats are trying to say that Biden has a messaging issue. The fact is that

issue, and that Democrats must reverse course or be slammed come November. Of course if they reverse course, try to stop spending on every bizarre project, if they stop giving into the AOC wing of their party, they'll lose a lot of donors and support from that wing. Either or, they're screwed come November.

A Note To Each Of You

Several of you have asked me to stop talking about the 2020 election and tell me that it's time to move on. Sorry but I refuse to do this, and it's important that I explain why and that you understand why. Our elections are as much a matter of trust as anything else. Everyone needs to know that our elections are fair and free from corruption. We need to have some type of finality each November. Because if we cannot trust our election process, then that will be the end of our national experiment.

There is now little doubt that there was a massive fraud that occurred in 2020. We must continue to speak out on this issue, and to keep calling for laws that will make sure our elections stay fair and free. Election Integrity was the number one issue for convention voters in 2021 inside CD 6. And note that the 3 winners in the May 2021 convention (Glenn Youngkin, Winsome Sears, and Jason Miyares) were the ones who came out with the best plans for election integrity, and were able to explain their plans to voters. While Democrats were upset over the 2021 results, they agree that the outcome was legitimate.

We cannot have another 2020 election, where Zuckerberg was allowed to spend money inside election counting rooms, and where Jack Dorsey of Twitter was allowed to ban alternate news sources that he may not have agreed with. And we cannot allow for ballot harvesting and the improper counting of ballots to ever occur again.

This is not an issue we can move on from. This is an issue we need to discuss and get tangible results from, as the alternative is too painful to discuss.

I remain

your servant
