Dear Friends and Fellow Republicans

Democrats Love Obama, Ignore Biden

Earlier this week, Barack Obama came to the White House to try and rally the troops from what has been a dismal performance from Joe Biden. With everything from rising inflation to the supply chain crisis to a foreign policy straight from the Neville Chamberlain book of How to Appease Petty Tyrants 101, this Presidency has been a disaster.

Obama's appearance, which was meant to build Biden up, only made Mr. Biden look weak and ineffectual. While Mr. Obama was an ineffectual and inconsequential President (other than 7 trillion in extra debt and Obama Care as his legacy), compared to Joe Biden... well let's just say that Biden has done more to destroy the image of the US around the world than any other president. And it's not even close.

Red State sums it up well here. Be sure to see the video of Biden walking around aimlessly trying to find someone to acknowledge him. Honestly his being president should be considered cruelty to a senior citizen.

Twitter Employees Acting Out Because They Won't Be Able to Suppress Conservatives

As most of you are aware, earlier this week, it was announced that Elon Musk has purchased over 9% of Twitter stock, making him the largest owner of the social media giant. Twitter has become famous for banning movement conservatives by silencing our speech. Twitter literally stopped discussion of Hunter Biden's scandals while early voting was going on, and according to some surveys, approximately 20% of Biden supporters would have voted for Trump if they had known about the Biden scandal.

However when the New York Post tried to run this on Twitter - Twitter "fact checkers" (aka truth suppressors) banned any discussion of the scandal, calling it fake news. This allowed the Biden campaign to call the Hunter Biden scandal a "debunked rumor". Honestly Jack Dorsey of Twitter belongs in jail for his role in the 2020 election (as does Mark Zuckerberg but that's a different story for now).

But the crybaby fact checkers at Twitter, who now won't be able to easily silence movement conservatives, are having a meltdown and many are threatening to resign because they can no longer silence us.

Don't get me wrong, I'm no fan of Elon Musk, he's an environmental extremist. But we work with people where we can, and Musk is a 1st amendment absolutist - which is a good thing. Musk believes that the 1st amendment is absolute, and that Twitter is the new Town Square, and free speech is the most important part of a free Republic.
