Dear Friends and Fellow Republicans

From what we can see on the outside, it seems that there is a likelihood that Donald J Trump will be arrested sometime in the next few days. This would be the 1st time that a former President would be indicted after they left office. I've done some legal research on this issue, and it seems to me that trying to say that paying a legal settlement and getting a non disclosure agreement out of the settlement – is now a violation of campaign finance laws, is bizarre beyond belief.

The Manhattan County District Attorney, Alvin Bragg, is a George Soros funded DA. As most of you are aware, George Soros donates millions of dollars each year to remove conservatives from every office. Soros prosecutors are why crime is more rampant than ever in major cities. Soros backed DA's and CA's are supposed to let criminals out of jail, not prosecute them. So for Mr. Bragg to be soft on murderers, and prosecute a former President for paying a legal settlement, is rather bizarre, yet typical at the same time from these radical leftists.

A piece of advice for Florida Governor Ron DeSantis. He should refuse to act on the extradition, and block the state of New York from serving the warrant.

May I suggest in lieu of protesting if Trump is arrested, register voters and get active in your community, and help take back Virginia. That will really piss off the lefties!

More on the Fallout of SVB

SVB's woke capitalism was always a house of cards. They may have talked a good game, but at the end of the day, the senior management of Silicon Valley Bank (SVB) were nothing more than greedy corporate raiders trying to rob money from hard working Americans to fund green projects and other woke ideas. Are all Silicon Valley companies corrupt? No. But they do live in a bubble which allows for them to never hear an idea which is different than their own thinking. So the senior management of SVB has never really hear a valid argument against investing billions of dollars into green energy. SVB would not understand the concept of a Risk Officer actually doing a risk evaluation on their investments, rather than using the position to promote radical woke causes. SVB senior management would never understand – even though

was holding onto. Why? Because they never talk to anyone outside their comfort zone.

Again not all Silicon Valley companies are corrupt. But many of them are Ponzi schemes. Theranos being the best example. There are others as well. FTX Crypto Currency. The list goes on and on. Metaverse is one of the biggest frauds to ever hit the street. They're spending 12 billion per year trying to get going – and most likely will never hit a profit. There are too many of these to list.

The chickens are coming home to roost for Silicon Valley. Sooner or later, these companies which will never be profitable will go under. Let's just hope they don't take out other good profitable companies as well.

Up and Down the District

We want to take some time to welcome Jacob Lipscomb as the new Waynesboro GOP Chair. Jacob is a father of 2, and is the husband of Waynesboro School Board Member Amber Lipscomb.

A brief bio about Jacob. He's a long time resident of Waynesboro, went through the school system of Waynesboro. Jacob attended college in West Virginia. He currently works for Nibco Incorporated. And is on the Board of Directors for his church. Jacob we're all expecting great things from you! And we know you and the good people of the Waynesboro GOP will deliver.

I was having Internet issues one day last week, and the server timed out as I was putting in the schedule of events. So for some odd reason, when I sent out last week's newsletter, the schedule did not update. My apologies about that - but the program I use made an error while the internet was out, and the schedule update didn't take.

back Virginia

I remain
