Dear Friends and Fellow Republicans

So Many Democrat Shenanigans - So Many Issues to Discuss - So Little Time

No one was expecting what happened these past few days - but we do need to talk about Democrat/Swamp dealings.

When was the last time that a former FBI Director thought it would be a good idea to state that someone needed to kill a certain president. Not in my lifetime. Yet here we go. Disgraced former FBI Boss James Comey thought it would be a good idea to post some seashells put together that said "86 47". (For those of you who don't get it - 86 was a Mafia term that meant "8 miles out, 6 feet under). There can be no misunderstanding of what the implication was. Currently the FBI is assisting the US Secret Service in an investigation. There needs to be a prosecution here. There is no way that Mr. Comey didn't understand what he was saying. And for him to go on to a leftist cable news talk show and suggest that it was an innocent joke is gross. Imagine if that had been any of us who posted that? We'd be in Gitmo for certain.

Not to be outdone - the office of Joe Biden has issued a press release,

dubious at best. We are not like Democrats - we are bigger and better people than they are. Biden was a horrible president who should have been impeached and removed from office. But we are to pray for the souls of all men and women. It is my fervent hope that a miracle happen and that Mr. Biden lives a long healthy life. We all should pray for his recovery. It is also my fervent hope that the truth is exposed about all the crimes and cover-ups his regime was a part of. And it looks like Mr. Biden has had this cancer for at least 5 years - maybe more. Aka the legacy media and the Democrat Party covered up Biden's health, at a horrible cost to this country.

Megyn Kelly does an amazing breakdown of this current Biden scandal - it's rather long - but if you can - do watch. Even Democrats come on the channel to tell how Biden covered up his declining health. In this are some audio clips of the Robert Hur deposition of Joe Biden - showing just how bad his mental decline was. Democrats hid this from us. Along with their allies in the legacy media.

Meet the New Boss – Not the Same as the Old Boss

What a difference an administration can make? We've gone from that clown Fauci – he who was science – to an actual doctor who has an understanding of how to manage a bureaucracy and how to handle a crisis. Meet NIH Director Jay Bhattacharya. The new NIH Director was one of the 1st to criticize Fauci's handling of the COVID crisis.

When asked what he would do differently, Dr. Bhattacharya said and I quote: "The first and most important thing is that dissenting voices need to be heard and allowed". Dr. Bhattacharya understands that there is no such thing as settled science (something that must really irritate leftists). Bhattacharya correctly has accused Fauci of engaging in a COVID cover up. Bhattacharya has called for an independent commission to assess the pandemic response. This is important because we need to learn from what happened (2020-2023) to see what we did right, what we did wrong, and what other countries learned – so we can be better prepared in case such a crisis happens again.

Bhattacharya also has properly called out the World Health Organization (WHO) for calling for governments to have near dictatorial powers during a health crisis. Suppressing free speech, freedom of movement, and suppressing the principle of informed consent. Remember that Governor Black Face Ralph Northam said we cannot go to worship, yet going to Wal Mart was ok.

It's refreshing to have someone in government who wants to actually follow the science and see where that leads us, rather than have a petty dictator in an office who corrupts science to be a petty tyrant.

And not to be outdone, but US Attorney Alina Habba (remember her) has announced that - in conjunction with AG Pam Bondi, that there will be a prosecution of Congresswoman LaMonica McIver - aka she who attacked ICE agents during a protest (more like a riot).

The Trump Administration is doing their job to try and drain the swamp at all levels.

Memorial Day vs. Veteran's Day

I'm aware most of you know the difference between the 2 holidays. Yet some may not. Veteran's Day is the day we honor all of our veterans. Memorial Day is the day we honor those who have fallen in battle or have died from after being taken prisoner or from wounds suffered in battle. We honor fallen soldiers from wars starting in 1775 and ending with Operation Iraqi Freedom. And every conflict in between. If it's ok with each of you, I want to take a

1st off, Private 1st Class Thomas Cameron – 32nd Ohio Company A. PFC Cameron lost his life in defense of the USA on September 15 1862, at the Siege of Harpers Ferry in the Sharpsburg campaign (Antietam for those of you north of the Mason Dixon Line). PFC Cameron was killed by shrapnel/shell launched from Maryland Heights at Harpers Ferry. For those of you who are curious, Stonewall Jackson was the Confederate commander that day.

2nd, I want to honor my Confederate ancestor Robert Carlisle. Robert Carlisle was born in Rockbridge County in or around 1840, and moved to Alabama in the late 1850's. He joined the 9th Alabama Cavalry and fought with the 9th until being captured by Union forces outside Atlanta in 1864. General William Sherman commanded the Union forces. He was transferred to a prisoner of war camp in Indiana, where he later died from exposure sometime after the War ended.

I'd love to hear about any ancestors you may have who gave the ultimate sacrifice. Please share with me your stories, I'd love to hear them.

I remain

your servant
